

RASOUL AMERI

Profession: Profession: AI Researcher — ML Engineer

Contact number: +886-974-309418

Email: Rasoul.ameri90@gmail.com

Public page: <https://rasoulameri.github.io/>

Location: Taiwan

PROFESSIONAL SUMMARY

AI researcher and software engineer with 10+ years of experience in deep learning, time-series forecasting, and explainable AI. Strong publication record with 14 journal articles, H-index of 9, and international collaboration experience. Skilled in Python, PyTorch, TensorFlow, and deploying AI solutions in health and finance domains.

EDUCATION

Ph.D. in Information Management GPA: 4/4	2022–2025
National Yunlin University of Science and Technology (YunTech)	Yunlin, Taiwan
M.Sc. in Artificial intelligence GPA: 4/4	2013–2016
Shahrood University of Technology (SUT)	Semnan, Iran
B.Sc. in Software Engineering GPA: 3.43/4	2008–2012
Shahrood University of Technology (SUT)	Semnan, Iran

WORK EXPERIENCE

Research Assistant	2022–Present
Lab: Explainable AI	YunTech, Taiwan
- Applying Explainable AI for healthcare systems - Time series forecasting by deep learning and machine learning models based on the optimization algorithm.	
AI programmer	2016 – 2022
Freelancer	Semnan, Iran
- Content production and programming for AI applications. - Stock market prediction of 300 Japanese companies using CNN-LSTM. - Developing machine learning applications to forecast meteorological time series.	
IT & Business Process Administrator in Mining Sector	2016–2020
Manganese Sardar	Semnan, Iran
- Designed and implemented payroll and cargo management software used by over 20+ staff in the mining sector. - Administrative tasks related to insurance and government organizations	
Research Assistant	2013–2016
Lab: Industrial signal processing and AI laboratory	SUT, Iran
- Emotion recognition by applying deep learning from EEG signals. - EEG signal classification using dictionary learning algorithms.	

HONORS AND AWARDS

Scholarship for outstanding doctoral students from YunTech	2023
Scholarship for outstanding doctoral students from YunTech	2022
Second rank in AI group out of 10 students	2016
Second rank in software engineering group out of 49 students	2012

PROJECTS

Fall risk assessment using hybrid ML and DL approaches and a novel posturography National Taiwan University	2022
A study of falls and related injury risks in stroke patients—application of explainable AI National Taiwan University	2023
Developed ML applications to forecast meteorological time series based on an LSTM network University of Hawaii at Mānoa - Civil & Environmental Engineering	2023
Data-Driven Blood Concentration Classification Through Voltage-Induced Signal Patterns statigen.ai	2024

RESEARCH METRICS

H-index: 9
Total Citations: 340
Publications by Type: Journal Articles: 14 — Conference Papers: 3 — Book Chapters: 1
More Details: [Google Scholar Profile](#)

SKILLS

Programming: Python, MATLAB, C/C++, Fortran, SQL
Machine Learning and Deep learning frameworks: TensorFlow, PyTorch, OpenCV, NNI, and SkLearn
Back-end: Django, Flask
Languages: English (Intermediate), Persian (Native)

CERTIFICATES

Generative AI Engineering with LLMs Specialization	2025
<i>Responsible AI: Applying AI Principles with Google Cloud</i> by Google Cloud	2024
Prompt Design in Vertex AI by Google Cloud	2024
<i>Introduction to Responsible AI</i> by Google Cloud	2024
Developing AI Applications with Python and Flask by IBM on Coursera	2023
<i>Getting Started with Git and GitHub</i> by IBM on Coursera	2023
Machine Learning by Stanford University & DeepLearning.AI on Coursera	2023
<i>Vision control</i> by Meta on Coursera	2023
Introduction to Structured Query Language (SQL) by University of Michigan on Coursera	2023
